

Barrikade EP-Decor Wall
Wall in food industry
Project: JM Chark, Halmstad

Barrikade®
Reference Sheet

R.13 – 07.05

JM Chark, Halmstad

The area is used for slaughtering and dressing of pigs.

The floors are exposed to splashes of blood and water as well as mechanical loads from the cleaning process.

The walls shall be hard-wearing, hygienic, easy to clean and watertight. The coating was installed on concrete elements.

Barrikade EP-Decor was installed on 300 m².
