

Steno Terrazzo

Floor in entrance hall

Barrikade[®]
Reference sheet

R.D.03-01.13

Reception area Kongsberg Maritime

In the autumn of 2012 Hesselberg Bygg installed Steno Terrazzo in the reception area of Campus 1 at Kongsberg Maritime. A floor layout was developed where the terrazzo should match the shapes and colours of the interior design with curves and four different shades of blue. Different shades of blue were made by varying the binder and the mix of amrble and glass. The curved shapes were divided by aliminium profiles.

- ▲ **Requirements:**
 - hard wearing
 - Easy to clean and hygienic
