

## System Data Sheet

### Barrikade EP-Decor Wall

# Barrikade®

Coloured quartz system for walls

#### System description

**Barrikade EP-Decor Wall** is a seamless coating system for walls, build up by a solvent free two-component clear epoxy, coloured quartz and a clear epoxy topcoat. **Barrikade EP-Decor Wall** is a very hard-wearing coating with good chemical resistance. The coloured sand makes it very decorative. **Barrikade EP-Decor Wall** can be made in a range of colours.

#### User areas

**Barrikade EP-Decor wall** can be used on new and old walls where there are strict hygienic requirements, where chemical resistance and clean ability is important and where a decorative wall system is desirable. The wall system is suitable both in wet and dry environments:

- Food industry
- Pharmaceutical industry
- Shower rooms
- etc.

#### Properties

*Chemical:* **Barrikade EP-Decor Wall** has a waterproof seamless surface with good resistance against chemicals such as alkalis, grease and salt, but has limited resistance to acids in high concentration.

*Mechanical:* **Barrikade EP-Decor Wall** has very good mechanical properties and is very hard wearing.

#### Surface treatment

Surfaces must be clean and dry, dust free and free of loose material. Uneven substrate should be made even and holes and other defects should be repaired.

#### Build up

**Barrikade EP-Decor Wall** is build up by a clear tixotropic epoxy and coloured quartz. The system has a thickness of 2 mm and the finish of the surface is smooth.

*Primer:* **Barrikade EP-BT**

*Binder:* **Barrikade EP-BT**

*Topcoat:* **Barrikade EP-BT**

The installation is carried out with a special method developed for walls, and must be done by one of Hesselberg's contractor partners according to our specification.
