

System Data Sheet

Barrikade Comfort

Barrikade®

Self levelling PU comfort floor

Description:

Barrikade Comfort is a seamless decorative flooring system, based on solvent free polyurethane installed on a flexible undercoat containing rubber granules.

Barrikade Comfort is basically to be used on new or old concrete.

The system provides a very attractive mat surface.

Barrikade Comfort is sealed with a waterbased pigmented polyurethane topcoat.

User areas:

Barrikade Comfort provides a smooth, non-porous waterproof and springy surface and is suitable in areas where hygiene, cleanability and durability is essential, as well as comfort and noise reduction.

Properties:

Chemical:

Barrikade Comfort provides a seamless waterproof surface with good chemical resistance against alkalis, oil, fat and salt, but limited resistance against high concentrations of acids.

Mechanical:

The wear resistance of **Barrikade Comfort** is very good.

System build up:

Treatment of concrete surface: Grinding, shotblasting or scouring.

Surface should be in accordance with tolerance class 2 or better.

2 mm system

Primer: Barrikade EP-PB ZV: 0,3 kg/m²
Broadcast with 0,4-0.8 quartz sand
